MARKET LEADER

- Stratco has been around for over 70 years.
- Outback brand has been in existence for over 30 years.

- Ensures you are dealing with a reputable and reliable company with many years of experience.
- Offers peace of mind you are purchasing a market leading product.

ENGINEERING CERTIFICATION

- Stratco Outback system has been designed in accordance with all relevant Australian standards.
- Tested and certified by Stratco and Independent Engineers.

- Consumer peace of mind.
- Assists process of council approval.
- Knowledge that all connections will withstand anticipated loads.
- Advantage over other systems that do not comply with the latest Australian standards.

FLEXIBILITY

- Available in a wide range of designs, including flat roof, gables, curves, pergolas and opening roof.
- Available attached or freestanding.

- Consumer flexibility in design.
- Able to meet the majority of consumer needs.

FEATURE

BENEFIT

MAINTENANCE

- The Stratco Outback system has been designed for easy maintenance.
- Flush fitting connections provide minimal crevices.
- Open, accessible, easy to clean gutters.
- Regular hose or wipe down will ensure your Stratco Outback continues to look like new.

SPAN TABLES

- Stratco Outback designs are generated using industry leading span tables.
- Assist council approval.
- Consumer peace of mind.
- Comprehensive publication covering a myriad of different designs.
- Able to meet the majority of consumer designs.

AFFORDABILITY

- Stratco Outback is an affordable addition.
- Designs to suit any consumer budget.
- Leading home improvement product.

OUTBACK DECK ROOF SHEETS

- Excellent spanning capabilities, maximum single span of 4.5 metres.
- Provides a clean, clear uncluttered appearance.
- Reduces the need for internal beams and posts.
- More affordable over other units that require additional framework.

OUTBACK DECK ROOF SHEETS

- Innovation in design, including cover of 500mm and patented 'side-lap clipping'.
- Fast, easy installation.
- Ceiling like underside finish achieved by a lapping system with little evidence of the joining of sheets.
- Installation manageable by one person.

OUTBACK ROOFLITES

- Opal polycarbonate, domed profile, translucent sheet.
- Maximises natural filtered light under the Verandah.
- Self cleaning domed profile maintains its good looks.
- Opal coloured material is used for its high light and low heat transmission rates.
- Long life Polycarbonate material avoids the traditional pitfalls of fibreglass products.

OUTBACK FRAMEWORK

- Manufactured from high-tensile steel.
- Strong, efficient light weight components.
- None of the problems that are associated with timber, such as knotting, twisting, warping and painting.
- Gain the inherent consistency of steel.

OUTBACK FRAMEWORK

- All rollformed one piece sections.
- Additional strength from one piece beams as opposed to two piece beams.
- Ability to span greater distances, less need for more columns and beams.
- Less opportunity for deterioration due to capillary action.

FEATURE

BENEFIT

OUTBACK FRAMEWORK

- The framework is made from enclosed sections.
- No unsightly edges in view or within reach.
- No housing for unwanted pests.
- Forms a hollow passage for concealed wiring.
- Unlike C-section beams, the majority of screws are not visible.

OUTBACK FRAMEWORK

- Patented fluted and chamfered beams.
- Aesthetically pleasing.
- Structurally sufficient.
- Flutes act as strengthening ribs.
- Flutes aid as location points.
- Chamfers avoid the square 'box-like' shape of conventional beams.

OUTBACK BRACKETS

- Outback brackets are self-locating.
- Easy installation.
- Positive location for additional holding strength.
- Convenient and time saving.

OUTBACK BRACKETS AND COMPONENTS

- Hidden or contoured brackets.
- Maintains clean, neat appearance.
- Ease of maintenance.
- Reduces the number of visible brackets.

OUTBACK COMPONENTS

- Well designed plastic filler components.
- Applies the finishing touch.
- Specially chosen plastic to withstand harsh Australian conditions.
- Maintains a good colour match with the steel.
